<sup>1</sup> The current strategic asset allocations are based on our current long term asset class return and risk forecasts.

<sup>2</sup> Calculated daily and paid monthly in arrears. This does not include underlying fees and costs of individual investments. For all fees and costs associated with the Managed Portfolios, please refer to the relevant disclosure documents.

# Portfolio parameters

Investment universe	Managed funds, ETFs, listed managed funds and cash.
Number of investments	15 - 25 (subject to Investment Manager discretion and market conditions)
Maximum individual security weighting	30%

## How are the portfolios managed?

Mason Stevens Asset Management is the Investment Manager and controls the investment decisions

Individual investment management is outsourced to managed funds and ETF providers

Monthly Investment Committee to discuss economic outlook, sector views and risk management

Daily management and observation of market and portfolio exposure

## Why invest in the portfolios?

A simple yet sophisticated multi asset, daily liquid solution crafted for retail clients.

Designed as attractive and competitively priced building blocks tailored for a managed account setting.

Utilisation of a range of high-quality managed funds complimented by the strategic selection of domestic and international ETFs.

## What to be aware of

To invest in the Managed Portfolios you must have a Mason Stevens Global Investment Service or Mason Stevens Super account. Before you make an investment decision, it is important that you understand the risks that can affect your investment being able to meet its objective or retain value.

The risks that may impact the portfolios include, but are not limited to factors such as market risk, company or security-specific risk, and currency risk.

Please refer to the disclosure document for a full list of potential risks linked to the portfolio.
